SPECIAL FEATURES

- Maximum back-up fuse, if the expected shortcircuit currents at the installation location exceed the switching capacity of the circuit breaker (Rated short-circuit breaking capacity lcn)
- Rated current = rated uninterrupted current: 400 A
- Reduced neutral conductor protection
- Set value in neutral conductor is synchronous with set value Ir of main pole.
- Terminal capacity hint: Up to 240 mm² can be connected depending on the cable manufacturer.

| APPLICATION | Use in unearthed supply systems at 690 V |
