

JUDODIX 316 ISO fitting

Technical specifications

Certifications

- ISO metric thread - EN 60423 and EN 50262

Material

Stainless steel 316L, polyethylene terminal

IP66

EN 60529

**To be used with CAPRIPLAST and
CAPRIFLEX conduits**

Description

JUDODIX is a range of conduit fittings for use with our CAPRIPLAST and CAPRIFLEX helically wound steel conduits.

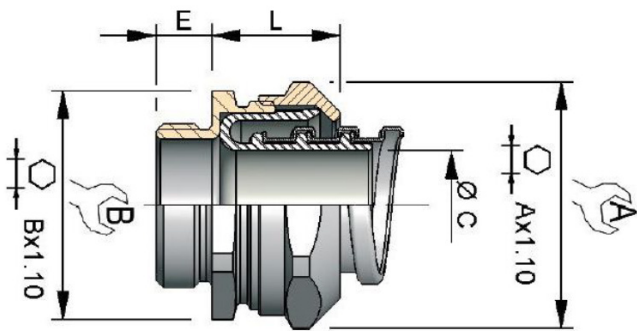

Securing on the inner and the outer of the conduit, JUDODIX fittings provide an IP66 protection.

Available in nickel plated brass or stainless steel, JUDODIX fittings offer ISO and Pg, male and female thread options which make these truly flexible products.
