

Expanded N22 series channel nut offering

Now available in stainless steel 304 and 316

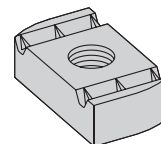

Channel nuts are a key component of our B-Line series strut system, and are now available in stainless steel type 304 and 316.

- Made of press formed, machined and hardened from steel
- Available in zinc plated steel, stainless steel type 304 (SS4) and stainless steel type 316 (SS6)
- For resistance to slip and pull-out strength, contact us for design assistance.
- To order, add finish code to the end of the model.
For example, N228SS4 is the N228 channel spring nut in type 304 stainless steel

Channel spring nut

Catalog #	Thread Size	Fits Channel Sizes	Nut Thickness in. (mm)	Weight /C lbs. (kg.)
N228	3/8-16	B22, B24, B32	3/8 (9.5)	9.3 (4.22)
